HOUSEHOLD.

CURING A COLD. To get rid of a cold, says The Ladies' Home Journal, send to the druggist A New York Judge Renders a Decision for a mixture containing sulphate of atropia one two hundred and fortieth of a grain; bi-sulphate of quinine two grains, and Fowler's solution, five drops, to each dose. Take a dose once in two hours for three or four times, or until the throat begins to feel slightly dry. If this does not entirely relieve the symptoms, repeat the treatment earefully, and use it with care as some usual, and do not sit in a hot room with the windows shut. Mix a teaspoonful of cream of tartar in a tumblerful of water and drink it during the day. If there is constipation take a gentle laxative, as a rhubarb pill. It is very important that all the avenues of the body for carrying off waste matter "If all other books should be destroyed, the should be wide open.

THE LIFE FOR A SINGER.

"What is the best food for a singer?" is a question very often asked of me, nourishing food; for that is the best for health, and to be well in health is to be well in voice, and good health is absolutely necessary for good singing. Some few things should be entirely avoided, such as nuts, for instance, enables the artiste to become great, then they will have their reward for all sacrifices. To be artistes, they should live as artistes—go, whenever possible, to hear and to see fine singing Chicago. and fine acting; endeavor to see fine pictures, fine statues; read clever CALL FOR MEETING OF TOBACCO books and the biographies of great men and great historical characters; to live, in fact, in an atmosphere of art and of intellect, which will help them far the Alliance throughout the Tobacco to think in their own artistic career.

USE WITH CARE.

How "dangerous a thing is a litfriend you encounter in a street car. lozenge. I am never without them. Whenever I feel a dryness in my throat, however slight, I pop one in my mouth and the dryness vanishes. don't wait till the really sore stage is reached." She had much better do so, for the probabilities are that she consumes forty useless lozenges to the one that proves a remedial agent, and the thirty-nine are not only useless, but ing to Alliances except the State Presiare not so absorbed, unkindly upon penses. the normal tissues of the stomach.

Quinine too, that most beneficient of S. Johnston—Committee. remedies in many cases, is much abused in as many more. The climatic conditions of this region do not demand its incessant consumption. Yet in innumerable households the box of quinine pellets from one grain for the children ceries in whole packages only at lowest up to five and even ten for the seasoned wholesale prices. The tone of the marhead of the family seems to be an ket is strong. essential. Quinine is counted among the ten dangerous drugs, and the statistics of the hospital show it to be the most prolific cause of deafness. And, on the other hand, this noble compound is accredited with having | increased the average length of human

life two and a half years. Another drug used in the hands of women especially is aconite. Many mothers will tell calmly of keeping a supply on hand with which to dose the children indiscriminately on the appearance of any abnormal condition. Fortunately most of the aconite thus recklessly used is in the little sugar pills of the homeopath, doubtless given thus judicously because of the habit; but there are mothers who boldly administer the mother tincture. Yet aconite is a deadly poison, used by s physicians with the most scrupulous care and nicety, and supplemented generally with its antidote or compliment. It does serious evil, which must speedily be repaired with its good.

Simpler drugs are proportionately P lowerful if persited in. So mild a distillation as the essence of pepperment is injurious to the digestve organs taken too often. All medicine, indeed, that is not necessary works a degree of evil. For a slight ailing, if diet, natural sleep and proper exercise will not remove it, the safe plan is to summon a physician. As the late Dr. H. H. Hamilton said: "Not every one who wants a dose of salts or of senna should send for a doctor, but every one who | 30 needs it."-New York Times.

What Mr. Norton Says.

Having read Mr. Morhead's experience plating with gold, silver and s nickel. I feel it my duty to inform others of my success. I sent for a l'later and have more work than I can do. It is surprising the spoons, castors The first week I cleared \$37.10, and in three weeks \$119.85, and my wife has made about as much as I have. By addressing W. H. Griffith & Co., Zenesville, Ohio, you can got circulars. A Plater only costs 83. You can learn to use it in an and can make money anywhere. I now have a nice home and bank No difference in bbls and sacks. account, all the product of \$3 invested | Raleigh freights 33c per 100 lbs. S. S. NORTON. No. 2, white.....

BLACK GETS A BLACK EYE.

in Favor of the R. S. Peale Reprint of the Encyclopædia Britannica.

[New York Special]-Judge Wallace, in the United States Circuit Court rendered a decision to-day refusing to grant an injunction against the next day. Copy this prescription the firm of Ehrich Bros., to restrain them from selling the "Encyclopædia Britannica," pubof the ingredients are poisonous. There lished by R. S. Peale & Co., of Chicago. The is no danger in using it if the directions complainants are the firm of Black & Co., pubare followed exactly. Before going to lishers of the original work at Edinburg, Scot-bed take a warm bath. The next land. In his decision, Judge Wallace holds that morning sponge the body rapidly with | rival publishers in this country have a legal tepid water, rubbing it hard until the right to use the contents of the original edition, blood circulates quickly and the skin except such portions of them as are covered by is in a glow. Take more exercise than copyrights, secured by American authors. The defendant's work, he finds, has substituted new articles for ihese copyrighted ones.

This decision is a square set back to the book trust, and directly in the interest of education and general intelligence. As an educational Bible excepted, the world would have lost very little of its information." Until recently its high cost has been a bar to its popular use, the price being \$5.00 per volume, \$125.00 for the set in the cheapest binding. But last year the puband of all professional singers, writes Mme. Albani-Gey, in the Ladies' Home Journal. I reply: "The plainest food is by far the best." Good, plain, but gain is shown by the fact that over half a million gain is shown by the fact that over half a million volumes of this reprint were sold in less than six months. It is the attempt of the proprietors of the high-priced edition to stop the sale of this desirable low-priced edition, which Judge Wallace has effectually squelched by his decision. We learn that R. S. Peale & Co. have perfected which affect the throat as well as the their edition, correcting such minor defects as digestion. To lead a regular life is also are inevitable in the first issue of so large a work absolutely essental, and young—and, indeed, all—artistes, if they wish to excel, must live for their art alone, and must give up a great many "pleasures": but if this, as it should do, tomers. It is a thoroughly satisfactory edition, printed on good paper, strongly and handsomely bound and has new maps, later and better than any other edition. We advise all who want this greatest and best of all Encyclopædias to get particulars from the publishers, R. S. Peale & Co.,

GROWERS.

more than at first they may be disposed Belt of North Carolina, the County Alliances, at their April meeting, will please appoint one delegate from each county to co-operate with delegates from the tobacco counties of Virginia the knowledge" has frequently been similarly appointed, in a convention to be held in Henderson, N. C., on Tueswhen every other person one meets has a notion or theory to advance upon the ethics of life, mental and physical, discreation is imperative. You have a sore throat, perhaps, and say so to a meeting will be the organization of an entire the entire that the every other person one meets day, the 28th day of April, 1891. The co-operation of all persons interested in the cultivation of tobacco, is earnestly desired. The objects of this meeting will be the organization of an entire the every other person one meets day, the 28th day of April, 1891. Second Grand Prize—

For the second largest list of yearly subscribers turned in, at one dollar each, between this and July 1, 1891, we will give as a premium a Saw Mill, complete, ready for operation. List price, \$300. Delivered on board of cars at Salem, N. C.

Price \$40.

BULL CALF—Dropped Sept. 16, 1890, by Thorn-brook Rioter, No. 16592, out of May Patrick, a full-blood Jersey Cow, but not registered; a beautiful fawn-colored calf. Price \$20.

The above are all first-class butter-producing stock, and are offered low because I am now fully into the horse-breeding business and it takes all my time and pasture for my horses.

Third Grand Prize—For the third largest list the premium is a Wind Mill, complete. List price, \$200. This Mill is manufactured and delivered on board of cars in Indiana. It is one of the best wind engines on every well equipped farm. The winner of this prize will be at liberty to take two small Mills should he prefer.
